3. To receive the approved annual accounts of the Society

The treasurer, Professor Chris Seal delivered the annual accounts. 2018 was a satisfactory year, financially, for the Society, although somewhat different from the past 5 years. In 2014 the Trustees agreed to build reserves, which could then be used to invest in the Society's strategic objectives.

In the three years between 2015 and 2017 the money spent by the Society on its activities did not exceed its annual revenue, which enabled just over £1 million to be accumulated in reserves. In 2018, to meet the many objectives agreed by the Trustees it was necessary to start to use those reserves, as the investment needed exceed the Society's usual annual income.

The accounts were received in full.

The proposer was Professor Jayne Woodside and the seconder was Professor Julie Lovegrove.
