

THE NUTRITION SOCIETY ENVIRONMENTAL POLICY STATEMENT

Statement

The Nutrition Society recognises that it has a responsibility to the environment beyond legal and regulatory requirements. The Society is committed to reducing its environmental impact and continually improving its environmental performance as an integral part of delivering its charitable objectives, its strategy and operating methods, with regular review points. The Society will encourage members, customers, suppliers and other stakeholders to do the same.

Responsibility

The CEO is responsible for ensuring that the environmental policy is implemented. However, all employees and volunteers have a responsibility in their area to ensure that the aims and objectives of the policy are met.

Policy Development

The Trustee Board is developing an integrated approach to environmental and sustainability issues as part of its current planning for the new Society Strategic Plan 2021-2025. This Policy Statement will be updated when the Plan is complete.
